

## **Our warm congratulation to Sadyr Japarov and Kyrgyzstan people on Sadyr Japarov was sworn in as Kyrgyzstan's new president.**

The people of East Turkestan and the East Turkestan Government in Exile warmly congratulate Sadyr Japarov, and Kyrgyzstan people on Sadyr Japarov was sworn in as president of Kyrgyzstan. We sincerely wish Kyrgyzstan to continue to grow faster and become one of the world's most powerful countries soon.

The Kyrgyz and the Uighurs are brothers and sisters with a common language, common religion, common culture, and a common border. We are always proud to remember and cherish this precious brotherhood.

Since China occupied East Turkestan in 1949, the Chinese Government, the Chinese aggressor, has been systematically committing a policy of genocide to achieve their vicious goal of destroying the people of East Turkestan and converting this territory into a hundred percent of Chinese. Especially in recent years, they are locking up millions of Uyghurs, Kazakhs, Kyrgyz and other Turkic peoples in concentration camps, testing biological weapons, harvesting organs, separating children, brutally killing infants, forcing labor and marriages.

We hearty appreciate the Kyrgyzstan people, who are consistently speaking up against the Chinese aggressor's genocidal crimes in East Turkistan. Also, we call upon all the civilized worlds and leaders to follow the United States, recognize China's atrocities in occupied East Turkestan as genocide.

It is very urgent to stop China's ongoing genocide crimes using more decisive international actions such as deploying peacekeeping troops to save millions of lives. Again, Uyghurs, Kazakhs, Kyrgyz, and other Turkic peoples desperately need your immediate help to survive.

Again, congratulations to Sadyr Japarov and Kyrgyzstan people on Sadyr Japarov were sworn in as Kyrgyzstan president.

Sincerely,  
President: Erkin Ablimit
